

Team Songs

White Team Song

We're the Whites, here we come,
Got the Green Team on the run as we fight for the team we adore.
Got the pep, got the vim,
We're the team that's gonna win as we roll out that big winning score.
Striving on with the spirit that is true,
Oh, Green Team, our challenge to you: victory.
And with sporting zest we set out to do our best as we roll on to victory once more.

Wanda's our captain, she's loyal and true.
Come one, captain Wanda, the white team's for you!
You've always played your game, and you've just won your fame
So come on, captain Wanda here's to you, rah rah!

Wanda's our co-leader, no one can beat her.
She's got the spirit to keep us ahead.
She'll stand up to the fight; she'll fight with all her might.
So Wanda here's to you, rah rah!

Find a team that can compare with us, we're the great White Team victorious.
Here we come with all our pep and vim, and we'll never stop until the Greens give in.
Marching strait we're gonna take a bow, for the whole white team has a great know-how.
Unexcelled, there's nothing we can't do against our rival team the Greens.
Tonight we'll raise our banner high, tonight the Whites will really try!
Again, the Whites will win their fame. Every White Team girl wants the same!
Find a team that can compare with us, we're the great White Team victorious.
Here we come with all our pep and vim, and we'll never stop until the Greens give in.

Two, four, six, eight,
Who do we appreciate?
The Greens, the Greens, woo!

Green Team Song

The Green Team has a rep for having lots of pep,
Fighting in every step as we all know.
Now and in the future years, the Greens will have their cheers.
How in the world did you find that out?
Just watch us go!

We fight in every game to keep up our good name.
Memories are due to fame, we're not too slow!
Now and in the future years the Greens will have their cheers.
How in the world did you find that out?
Just watch us go!

Green's the color for us, flying high before us
As we march to victory.
We're the Green Team singing, join our chorus ringing
As our banner floats on high.

Playing, fighting, never shall we stop!
Playing, fighting, for the score on top!

We're the green team singing, join our chorus ringing
As our banner floats on high.

Here's to captain Wanda, hail, hail, hail!
There's nothing that she cannot do.
She's got the spirit, the kind that never fails,
She's true. True blue.
She's the kind of girl who's always on the top.
Once you get her started you can never get her stopped.
So here's to captain Wanda, hail, hail, hail!
There's nothing that she cannot do!

Greens, Greens, come on let's cheer, cheer for our co-captain Wanda.
Greens, Greens, come on let's cheer, cheer for victory!

The green team has a rep for having lots of pep,
Fighting in every step as we all know.
Now and in the future years, the Greens will have their cheers
How in the world did you find that out?
Just watch us go!

Purple Team Song

(To the tune of "Green And White")

Purple, Purple's
The best color, and that ain't no bull!
Through the whole camp season
I get a lotta teasin', 'cause I'm the only one of all!
Purr! Pull! Pull! Purr!
It's so grape that it's worth cheerin' furr.
So I'm purring, you bet I'm pulling
For the best color at Waukeela today, Purple!
